Unbeatable Combination: Oracle Transportation Management (OTM) Plus Combined LTL Rating and Transit Data

About SMC³

SMC³ is the hub for less-than-truckload technology, data and education. SMC³'s hosted technology solutions support the entire supply chain with industry-leading speed, reliability and performance to help optimize LTL freight transportation. As the single integration point for all carrier rate, transit and service information, SMC³ solutions travel beyond simple connectivity and empower shippers, 3PLs and carriers to collaborate and optimize decision making throughout the entire LTL lifecycle — from rating through the invoicing process. SMC³ has a history of industry excellence and business stability, and an unrivaled reputation as a trusted guardian of data security.

SMC³ LTL APIs

SMC³'s API solutions allow freight transportation stakeholders to digitalize the LTL shipment lifecycle from quote to delivery. Through seamless integration to Oracle's transportation management system (OTM), shippers and 3PLs can:

- Receive pricing direct from carriers for contract, dynamic and volume rating
- Self-assign PRO numbers prior to pick-up
- Digitally schedule pickups and receive immediate confirmation
- Monitor shipments via real-time messaging
- View and download documents including bills of lading, weight & inspection certification, proof of delivery, and invoices

By integrating these API solutions with its core offerings like the CzarLite® base rate and the RateWare® XL and CarrierConnect® XL solutions, SMC³ customers command a 360° view of LTL pricing, transit times and carrier services.

SMC³ RateWare® XL

The implementation of RateWare XL enables you to fully realize the advantage of a durable rating engine with a library of more than 3,000 data modules. This robust rating simplifies LTL pricing and eliminates the costly tasks of sourcing, programming and maintaining data from multiple carriers. Use RateWare XL to:

- Manage LTL shipment costing and pricing, including carrier-specific discounts, minimum charges, deficit rating and FAK charges
- Quickly and easily convert and validate data for updating motor carrier tariff information and expiration dates
- Support rating requirements with various lookup and discounting activities
- Incorporate CzarLite® base rates in your logistics platform

SMC³ CarrierConnect® XL

With SMC³ CarrierConnect XL you can build a custom carrier selection system or an integrated component that runs alongside RateWare XL to access CarrierConnect XL data and return points of service, transit times and detailed service guide information. The product includes both

detailed transit data for carriers and the technology to use the data and interface it to your supply chain applications. The data in CarrierConnect XL includes more than 200 top carriers and allows SMC³ to provide you with the latest points of service and transit times for national, multi-regional and regional carriers. Data updates are automatic, guaranteeing you the most up-to-date and accurate information.

SMC³ CzarLite®

No matter where you ship in the United States, Canada or Mexico, SMC³ CzarLite base rates provide a flexible decision support tool to assure total pricing visibility and empowerment to make your best LTL purchases. Achieve optimal shipping agreements with a uniform base rate where you can:

- Simplify business processes like negotiations, contracts, payment and costing to enhance operating and profitability strategies
- Quickly evaluate the impact of carrier rate adjustments and conduct "apples-to-apples" base rate comparisons
- Assure your shipments are rated using timely, accurate, carrier-independent base rates, so the effects of line items such as discounts and FAK classifications are apparent
- Create your own flexible, borderless international pricing system with stable base rates for freight movements between the U.S., Canada and Mexico
