

An Unbeatable Combination: 3GTMS Powered by SMC³ LTL Rating and Transit Data

About 3GTMS

3GTMS was founded to provide you with a wholly different technology: a flexible, self-configurable TMS that adapts to the modern and future needs of shippers, brokers and 3PLs. Whether you move \$5 million or \$5 billion in freight, 3GTMS lets you effortlessly manage the full transportation life-cycle.

About SMC³

SMC³ is the hub for less-than-truckload technology, data and education. SMC³'s hosted technology solutions support the entire supply chain with industry-leading speed, reliability and performance to help optimize LTL freight transportation. As the single integration point for all carrier rate, transit and service information, SMC³ solutions travel beyond simple connectivity and empower shippers, 3PLs and carriers to collaborate and optimize decision making throughout the entire LTL lifecycle -- from rating through the invoicing process. SMC³ has a history of industry excellence and business stability, and an unrivaled reputation as a trusted guardian of data security.

SMC³ RateWare[®] XL

The implementation of RateWare[®] XL provides the advantage of a durable rating engine with a library of more than 3,000 data modules. This robust rating simplifies LTL pricing and eliminates the costly tasks of sourcing, programming and maintaining data from multiple carriers. Use RateWare[®] XL to:

- Manage LTL shipment costing and pricing, including carrier-specific discounts, minimum charges, deficit rating and FAK charges, in a streamlined and efficient process
- Quickly and easily convert and validate data through a simplified process for updating motor carrier tariff information and expiration dates
- Support rating requirements with various lookup and discounting activities
- Incorporate CzarLite[®] and CzarLite[®] XL base rates into logistics platforms

SMC³ CarrierConnect XL

Getting LTL freight to the right place at the right time requires the most accurate and timely information on the front end. CarrierConnect[®] XL compiles and continually updates transit times and service detail from more than 300 leading national, super-regional and regional carriers across North America, letting customers make the best choice for LTL shipments. CarrierConnect[®] XL makes it easy for logistics service providers to:

- Identify carrier operational capabilities, including points of service, transit times and terminal-to-terminal networks

-
- Compare the full-service portfolios of LTL carriers
 - Eliminate transit time and delivery date ambiguity with calendar date or number-of-days modeling, as well as carrier-specific holiday calendars
 - Make the most accurate routing decisions using dynamically updated carrier information that reflects real-world operations

SMC³ CzarLite®

No matter where goods are shipped in the United States, Canada or Mexico, SMC³ CzarLite® base rates provide a flexible decision support tool to assure total pricing visibility. Achieve optimal shipping agreements with a uniform base rate where customers can:

- Simplify business processes like negotiations, contracts and profitability strategies

- Quickly evaluate the impact of carrier rate adjustments and conduct “apples to apples” base rate comparisons
- Assure shipments are rated using timely, accurate, carrier-independent base rates, so the effects of line items such as discounts and FAK classifications are apparent
- Create flexible, borderless international pricing system with stable base rates for freight movements between the U.S., Canada and Mexico
