

## Strategic partners deliver complete solutions with SMC<sup>3</sup>

### About SMC<sup>3</sup>

SMC<sup>3</sup> is the leading transportation data and solutions provider to the freight transportation community. More than 5,000 North American shippers, carriers, logistics service providers and technology partners rely on SMC<sup>3</sup>'s sophisticated LTL base rates, content and expert bidding, rating and planning tools to make the best business decisions, achieve return on their transportation investment and meet the dynamic demands of the market.

### RateWare

LTL freight rating is complex. RateWare<sup>®</sup> XL lets shippers and 3PLs manage carrier pricing with ease. RateWare XL is the most comprehensive rating and pricing solution of its kind, enhanced with a library of more than 4,000 data modules. Available as a hosted application, RateWare XL's web services delivery integrates seamlessly and easily accommodates rapid changes associated with customers, vendors and business strategies.

### CarrierConnect

CarrierConnect<sup>®</sup> XL provides the most accurate LTL transit times and LTL carrier details available, compiling and continually updating LTL transit times and LTL carrier service detail from more than 200 leading national, super-regional and regional carriers across North America. With industry-leading speed, reliability and security, CarrierConnect XL seamlessly integrates with TMS applications. With CarrierConnect XL 3.0, customers can access transit-time intelligence through either RESTful APIs or SOAP API messaging.

### CzarLite

SMC<sup>3</sup>'s modern base rate CzarLite<sup>®</sup> is an accurate reflection of current LTL freight flows, providing customers a reliable, streamlined option when pricing out the cost of LTL freight transportation. The base rate can return accurate pricing using both the classification and density rating system. Whether shipping 500 pounds or 8,000 pounds of freight, CzarLite optimizes the rate implementation process and reduces rate negotiation complexity for all involved. The solution is a must-have for shippers seeking to operate efficiently and effectively as the LTL market continues to evolve.

### SMC<sup>3</sup> LTL APIs

SMC<sup>3</sup>'s LTL APIs provide automated visibility spanning the shipment lifecycle. With SMC<sup>3</sup> LTL execution and visibility APIs, users can digitize their shipment lifecycle, from pricing, dispatch, PRO# assignment, status, documents, and electronic bill of lading (eBOL), which digitally transmits information to carriers quickly and securely.
