

MANAGED EDI FOR NO-HASSLE COMMUNICATION

EDI messaging has been around for decades, and the communication standard is pervasive in the industry. SMC³ Integration Services provides an instant EDI infrastructure that supports connections among all TMS providers. Need an EDI connection? There’s no need for costly and onerous on-premises EDI implementations.

SMC³'s managed EDI infrastructure delivers:

**Unrivaled
Customer Service**

24/7 Monitoring

Reliability and Security

With SMC³'s no-maintenance, cloud-based service, you can:

- Scale messaging requirements with ease to serve your growing business
- Secure reliable communications at a fraction of the in-house cost
