About SMC³

Shippers, carriers, logistics service providers and technology providers look to SMC³ for the technology, industry data, educational services and general know-how to achieve greater success in the transportation marketplace. Founded in 1935, SMC³ has established a firm reputation among industry professionals as a central knowledge base for decision support, improved collaboration and streamlined processes in the movement of freight via motor carriers. SMC³'s hosted technology solutions provide accurate and timely carrier rates, points of service and transit times within a service-oriented architecture (SOA) accessible via a web service application programming interface (API).

SMC³ RateWare® XL

The implementation of RateWare® XL enables you to fully realize the advantage of a durable rating engine with a library of more than 3,000 data modules. This robust rating simplifies LTL pricing and eliminates the costly tasks of sourcing, programming and maintaining data from multiple carriers. Use RateWare® XL to:

- Manage LTL shipment costing and pricing, including carrier-specific discounts, minimum charges, deficit rating and FAK charges, in a streamlined and efficient process

- Quickly and easily convert and validate data through a simplified process for updating motor carrier tariff information and expiration dates

- Support rating requirements with various lookup and discounting activities

- Incorporate CzarLite® and CzarLite® XL base rates in your logistics platform

SMC³ CzarLite®

No matter where you ship in the United States, Canada or Mexico, SMC³ CzarLite® base rates provide a flexible decision support tool to assure total pricing visibility and empowerment to make your best LTL purchases. Achieve optimal shipping agreements with a uniform base rate where you can:

- Simplify business processes like negotiations, contracts, profitability strategies

- Quickly evaluate the impact of carrier rate adjustments and conduct "apples-to-apples" base rate comparisons

- Assure your shipments are rated using timely, accurate, carrier-independent base rates, so the effects of line items such as discounts and FAK classifications are apparent

- Create your own flexible, borderless international pricing system with stable base rates for freight movements between the U.S., Canada and Mexico
