

CarrierConnect[®]XL

Compare the full portfolio of services from the industry's leading national, super-regional and regional less-than-truckload carriers.

Fast and Accurate LTL Carrier Service Data and Transit Times

Making sure freight always arrives in the right place at the right time is a complex equation. Solving this puzzle requires accurate and timely transit information and carrier data. With CarrierConnect XL, shippers and 3PLs are guaranteed to make the best carrier selection for their LTL needs.

With industry-leading speed, reliability and security, CarrierConnect XL from SMC³ also offers seamless integration with your TMS system.

Unparalleled carrier transit and service information

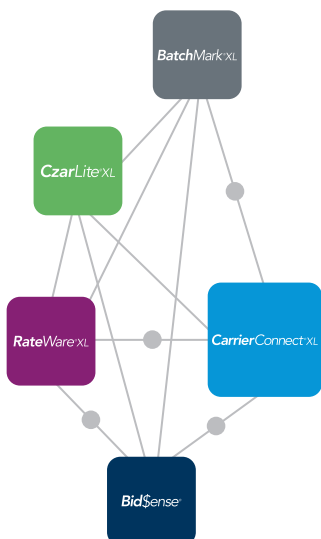

CarrierConnect XL 3.0 provides:

- Access to 300+ industry leading national, super-regional and regional LTL carriers plus select truckload carriers
- Transit information to both calendar-day and transit-day formats
- Detailed, terminal-level carrier contact information
- Frequent carrier updates so users always have the latest data
- RESTful and SOAP API messaging
- API versioning for seamless product updates
- Historical inquiries

What Does It All Mean?

With CarrierConnect XL 3.0, customers can access transit-time intelligence through either RESTful APIs or SOAP API messaging. The addition of RESTful APIs makes it easier for integration into some TMS applications. API versioning allows for seamless product updates.
